Communication and Location Terminal (CLT)
To monitor geographic location and detect physical movement of each unit. Collect data from external sensors with ATEX certified.

04

Temperature Sensor(TS)
Digital, non-instrusive sensor to monitor the temperature of loaded cargo inside of unit. Temperature in °C or °F are displayed and history are stored on cloud-based server.

06

Loading/Unloading Sensor(LUS)
Multi-functional communication and location terminal that monitors geolocation of units , controls various heating/cooling devices and detect physical motion and shocks.

02

Pressure Sensor(PS)
To monitor pressure inside of a tank container with ATEX certified. Used together with 3rd –party compatible pressure transmitter.

03

Filling-Ratio Sensor (FRS)
Digital, non-instrusive and made-up by two probes to check the filling ratio of each unit. ATEX certified.

05

Heating and Cooling Terminal(HCT)
Digital temperature sensor for tank container to amid steam or hot water heating. ATEX Certified.
